Commas to clarify meaning

Commas are used to separate parts of sentences when it is important.

Without them, this sentence can be misleading.

Let's eat kids!

Suggests we are going to eat children.

Let's eat, kids!

Suggests we are going to eat something with the children.

Comma clarifies meaning.

Subordinating conjunctions

A type of subordinate clause used to adapt, modify or describe a noun. Creates a clearer picture and often starts with a relative pronoun: who, which, where, when, whose or that.

Examples:

That's the girl who lives near us.

I live in Oswaldtwistle, which is near Acrinton.

Each sentence has a main clause followed by a subordinate. This subordinate clause begins with a relative pronoun.

They can also be regularly used as an embedded clause:

My bike, which is very old, is broken.

The relative clause is 'framed' within commas.

Convert nouns and adjectives into verbs

Using suffixes -ate, -ise, -ify, nouns and adjectives can be converted to verbs.

Vandal ----> vandalise (just add -ise)

Medical ----> medicate (remove 'al' before adding 'ate')

Note ----> notify (remove the 'e' before adding -ify)

Horror ----> horrify (remove 'or' before adding -ify)

Modal verbs

Modal verbs provide clarity of instruction allowing us to understand the level of possibility.

• **ALMOST CERTAIN**

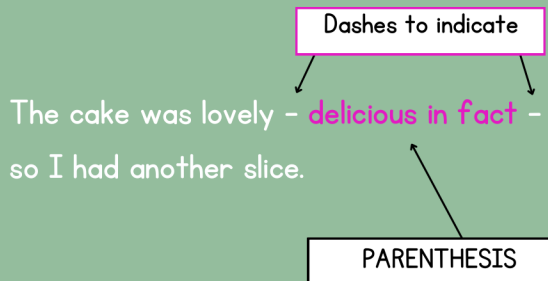

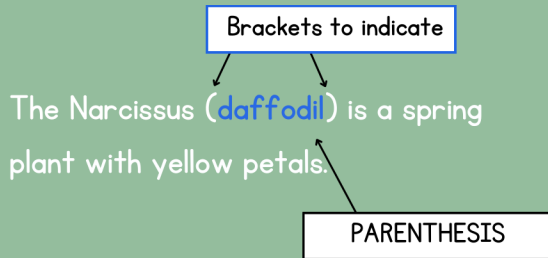

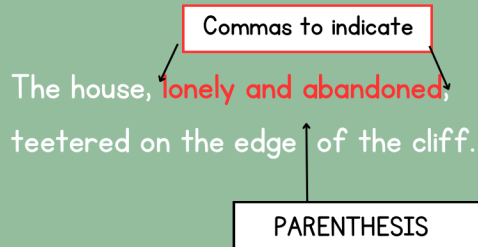

• **VERY UNCERTAIN**

- **MUST**
- **WILL**
- **WOULD**
- **OUGHT TO**
- **SHOULD**
- **CAN**
- **COULD**
- **MAY**
- **MIGHT**

Using brackets, dashes and commas to indicate parenthesis

Parenthesis is when a word, phrase or clause is inserted as an afterthought or an explanation. The sentence will make sense if this is removed.

Building cohesion within and across paragraphs

Fronted adverbials allow us to show relationships between ideas and to logically connect sentences and paragraphs.

<u>Number/frequency</u>	<u>Time</u>	<u>Place</u>	<u>Manner</u>
